27 Years of Experience in the Sector

About Us

Istanbul-based çilek havuz aims to continue its leadership in the sector with its professional applications without sacrificing quality In many parts of world and all over Turkey especially Istanbul.

The unconditional satisfaction of our customers and the fulfillment of our employees are always at the forefront of our company.

It is our duty To fulfill our responsibilities to humanity, the environment and universal values, to produce the most appropriate solutions to the expectations of our customers, to prioritize customer satisfaction and to continuously increase MarketShare.

The most important part of our mission is to always present the best in the fastest way and to ensure that the different expectations of our customers are met with a well-intentioned and professional approach.

Providing trust and satisfaction always being above our interest prevents and / or solves your problems before they can occur and will pave the way to our success. Our goal is unconditional customer satisfaction. Our absolute power to achieve this goal; is our expert staff who are trained and have a sense of responsibility.

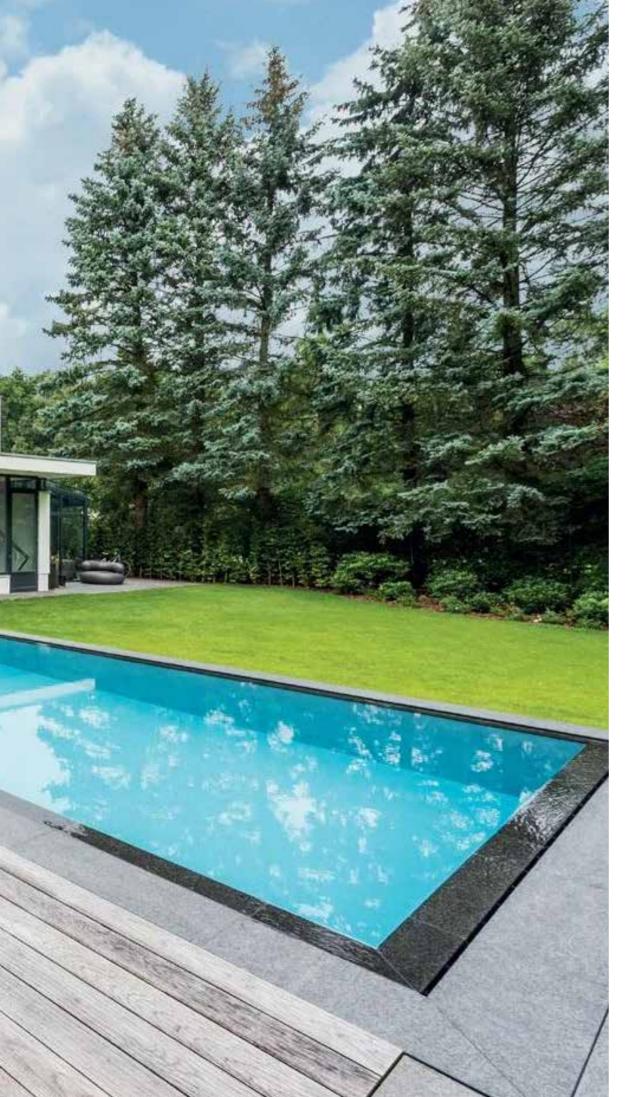

Determination to succeed: Determining the quality standard in the construction industry and always aiming to be the best, is our greatest assurance that we work with the determination to succeed and is the reason we have reached this level.

Serdar SAVAŞ

Chairman of the Board

Fields of Activity

Çilek havuz, with its expert and professional team, provides world-class service starting from design of the pool, sauna and spa elements to application and post-application support stages. Within this framework, Çilek havuz fulfills all the special requests of its customers by synthesizing technique, aesthetics and quality in the best way.

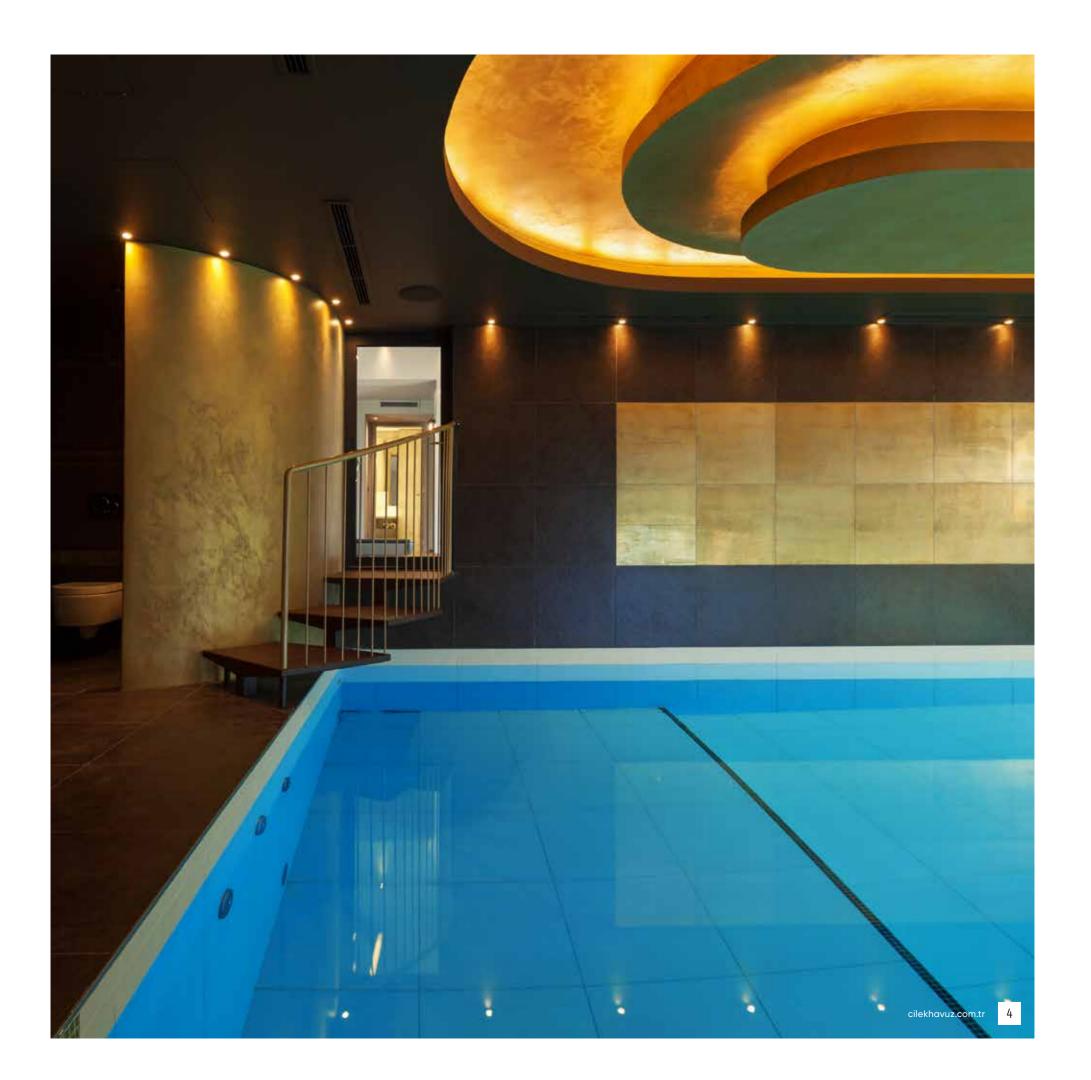

Thanks to its professional staff and infrastructure, it is one of the rare companies that make turnkey swimming pools and spas with all the stages starting from reinforced concrete construction to mechanical installation.

Beyond expectations, standards and sectoral habits, with the purpose of high standards...

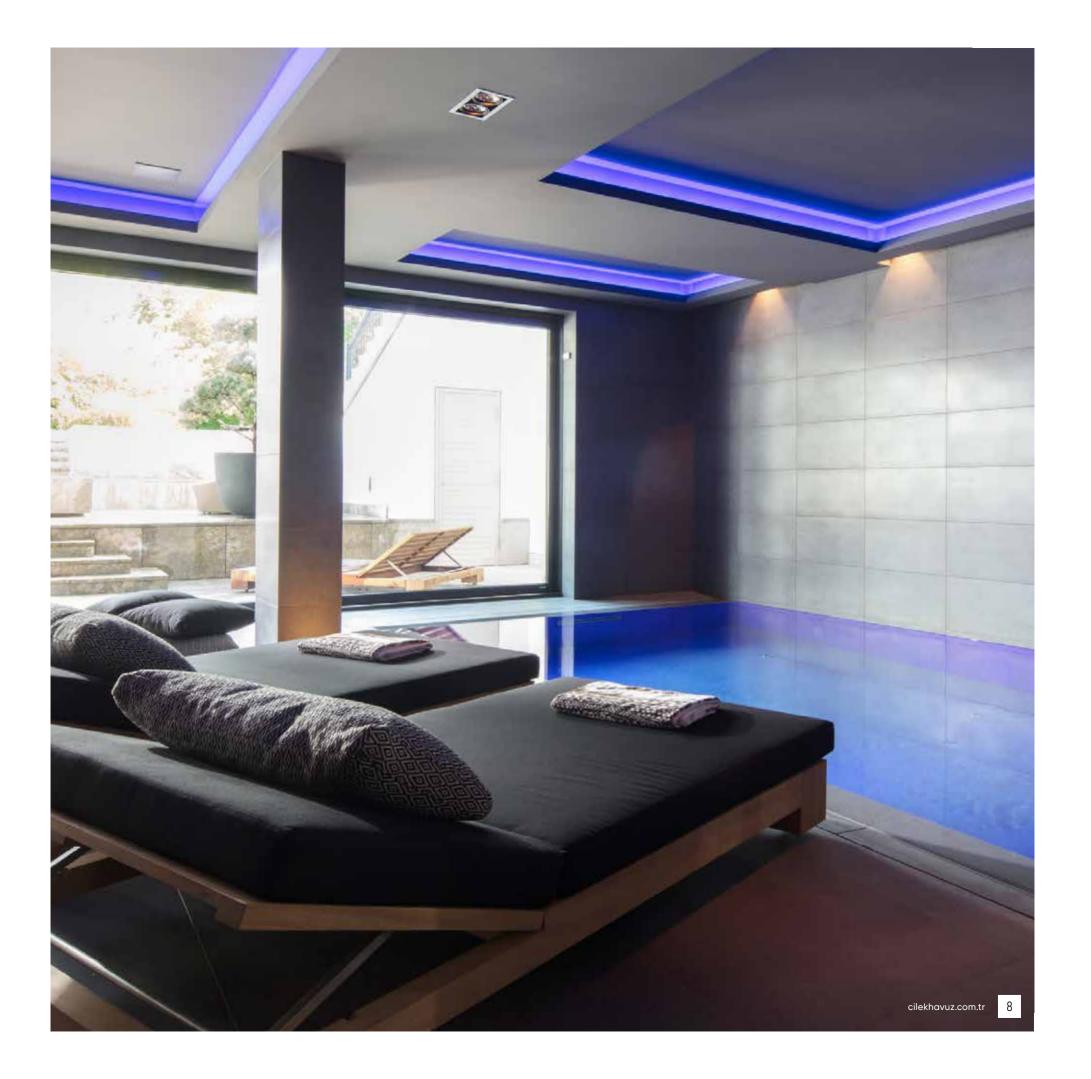

As Çilek havuz family, we all do our job at the highest possible standards, and we keep business values of our corporate company above everything.

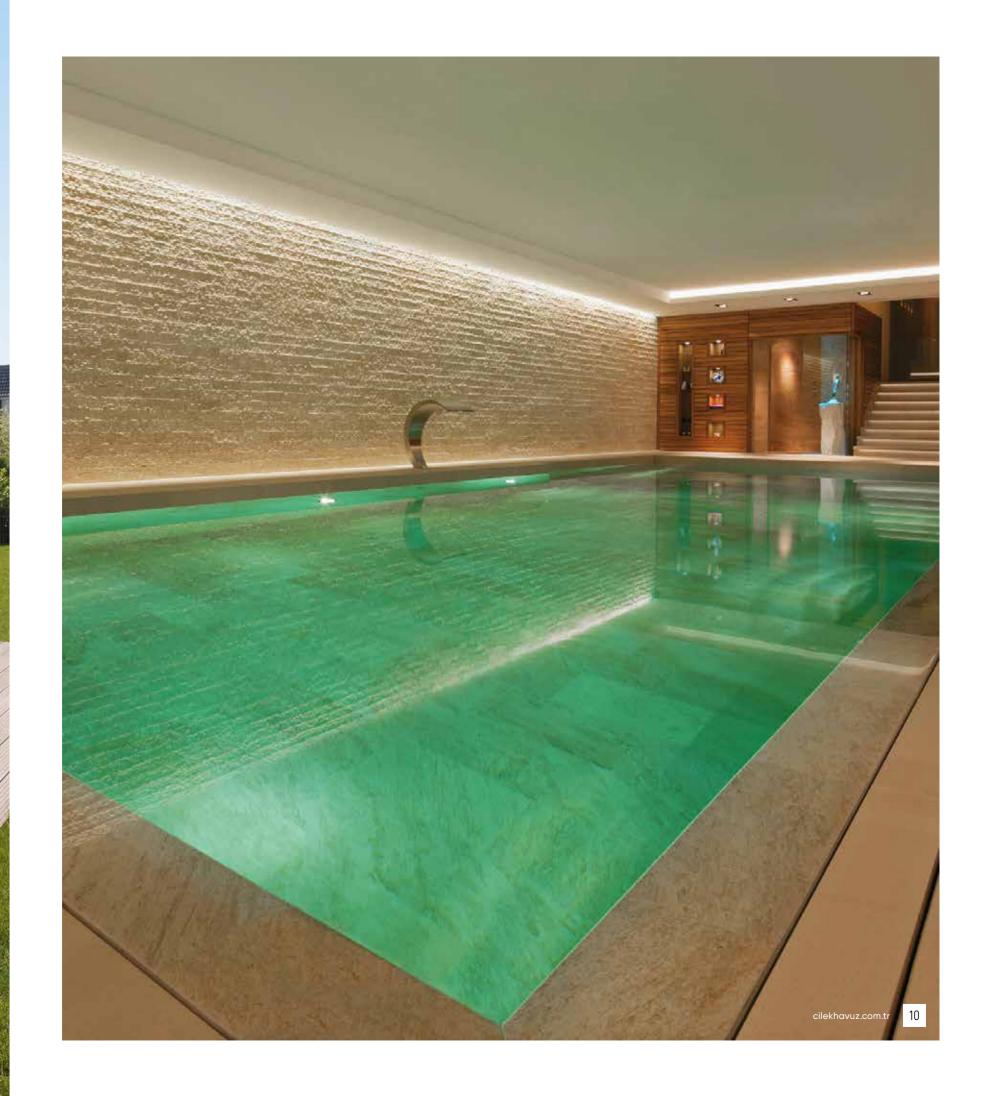

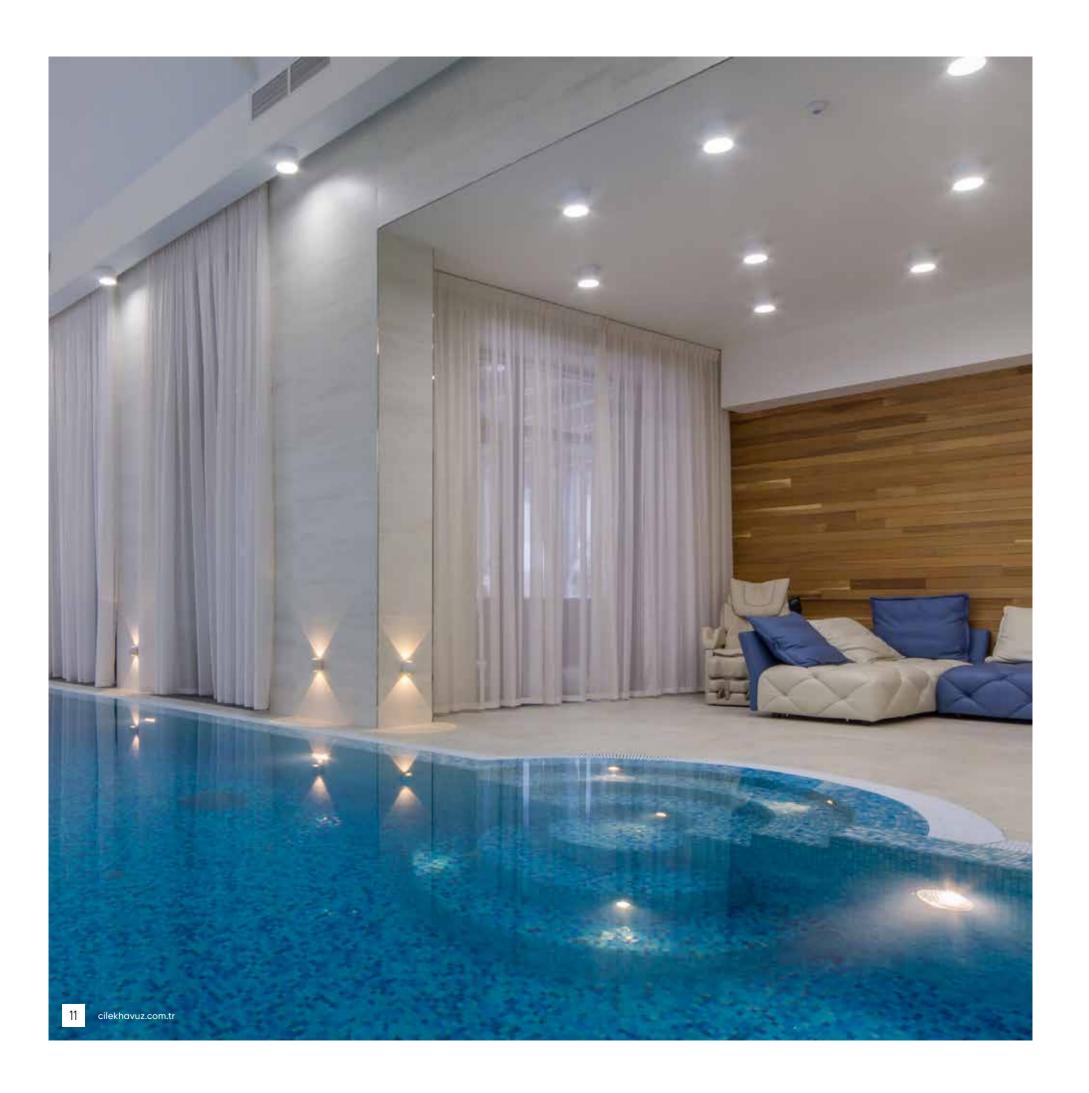

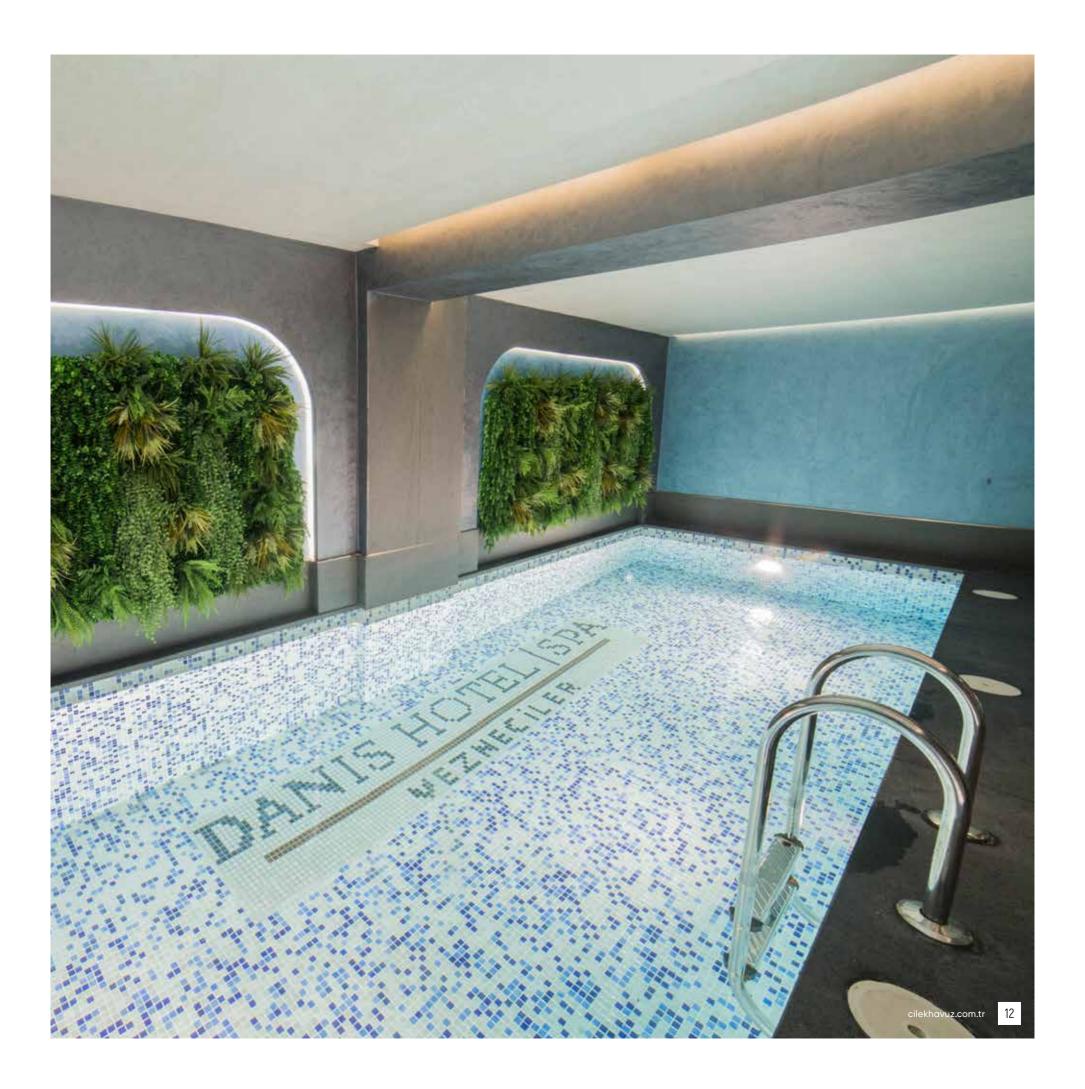

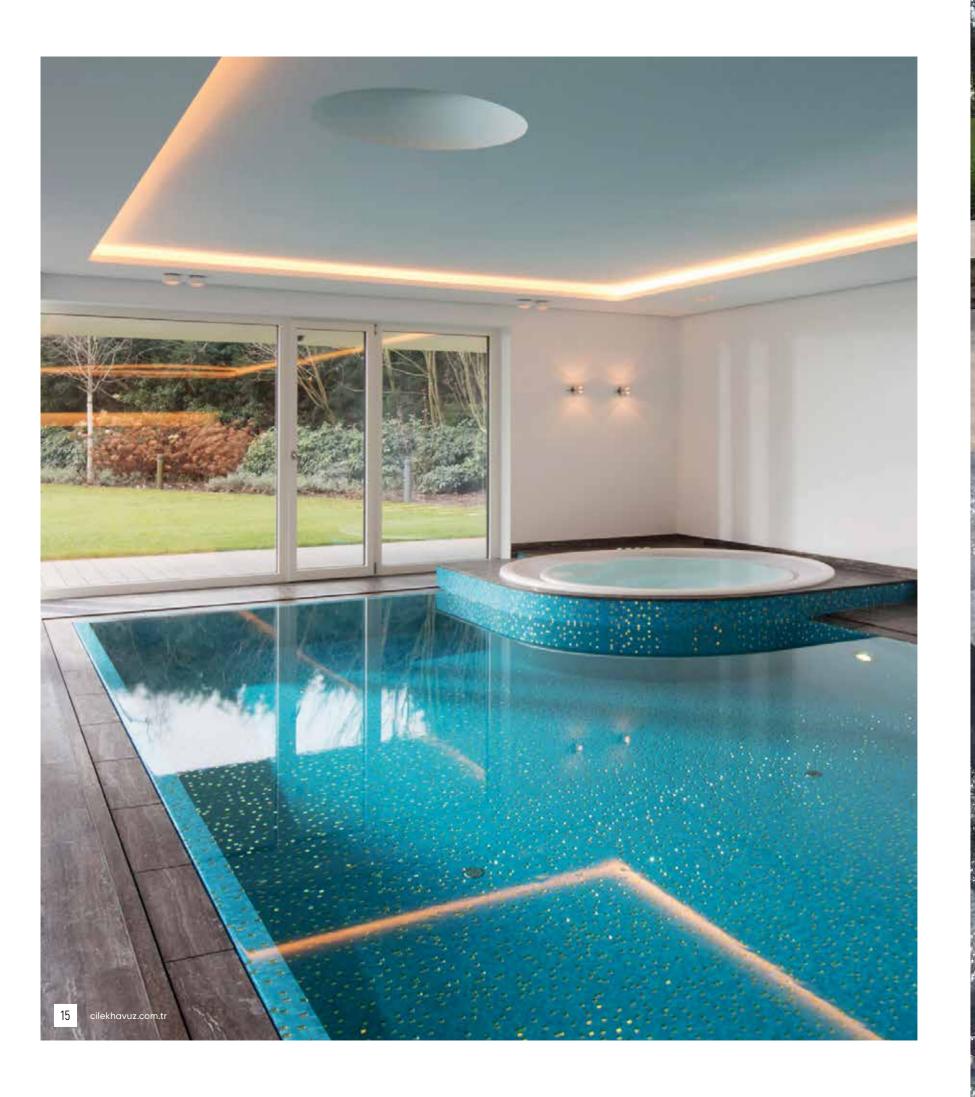

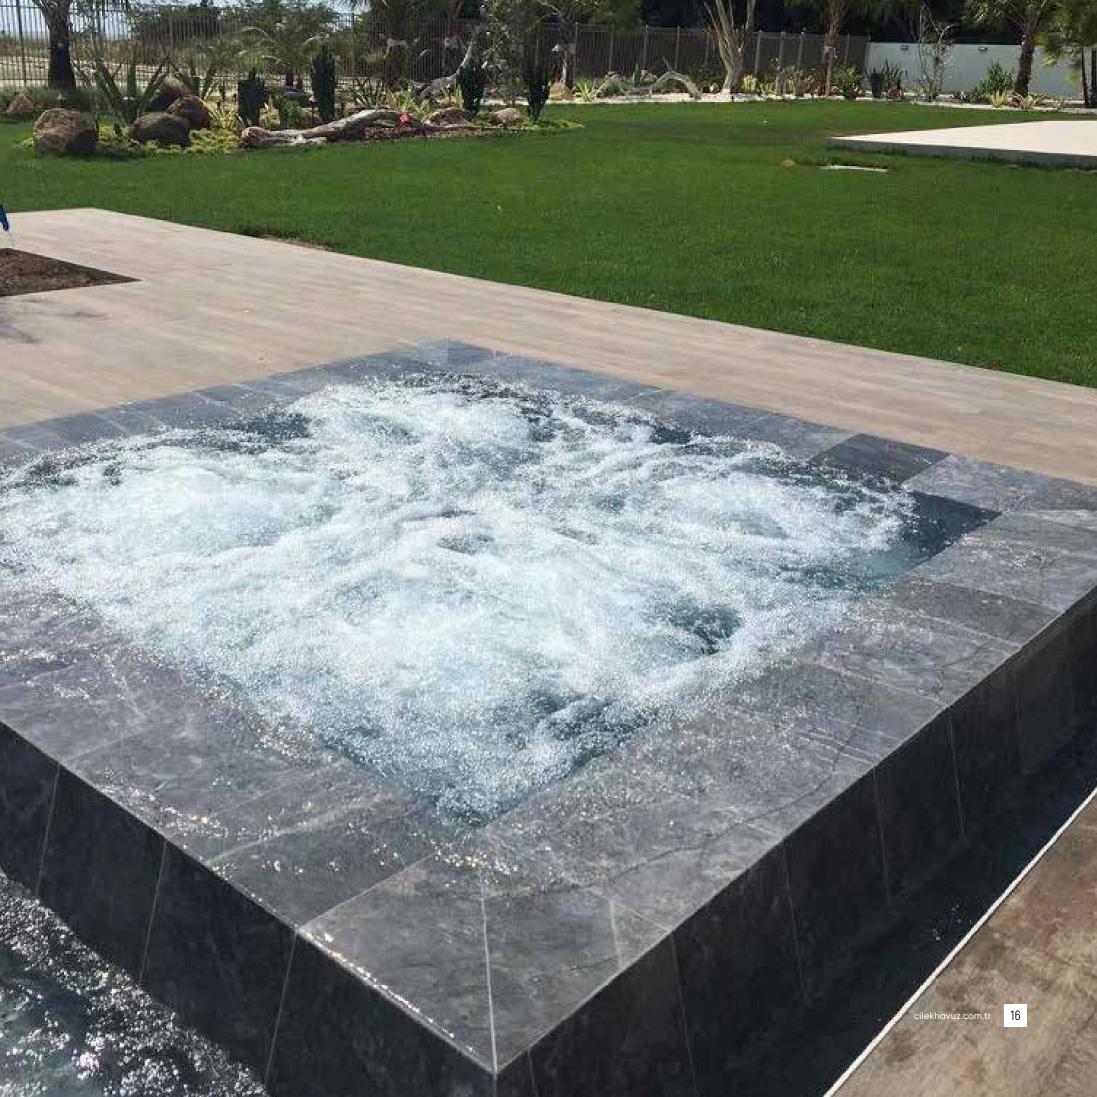

Strong, hygienic and accurate hydromassage solutions

Our qualified hydromassage pool projects, which keep the comfort of the guests at the highest level are designed in harmony with the place they are located.

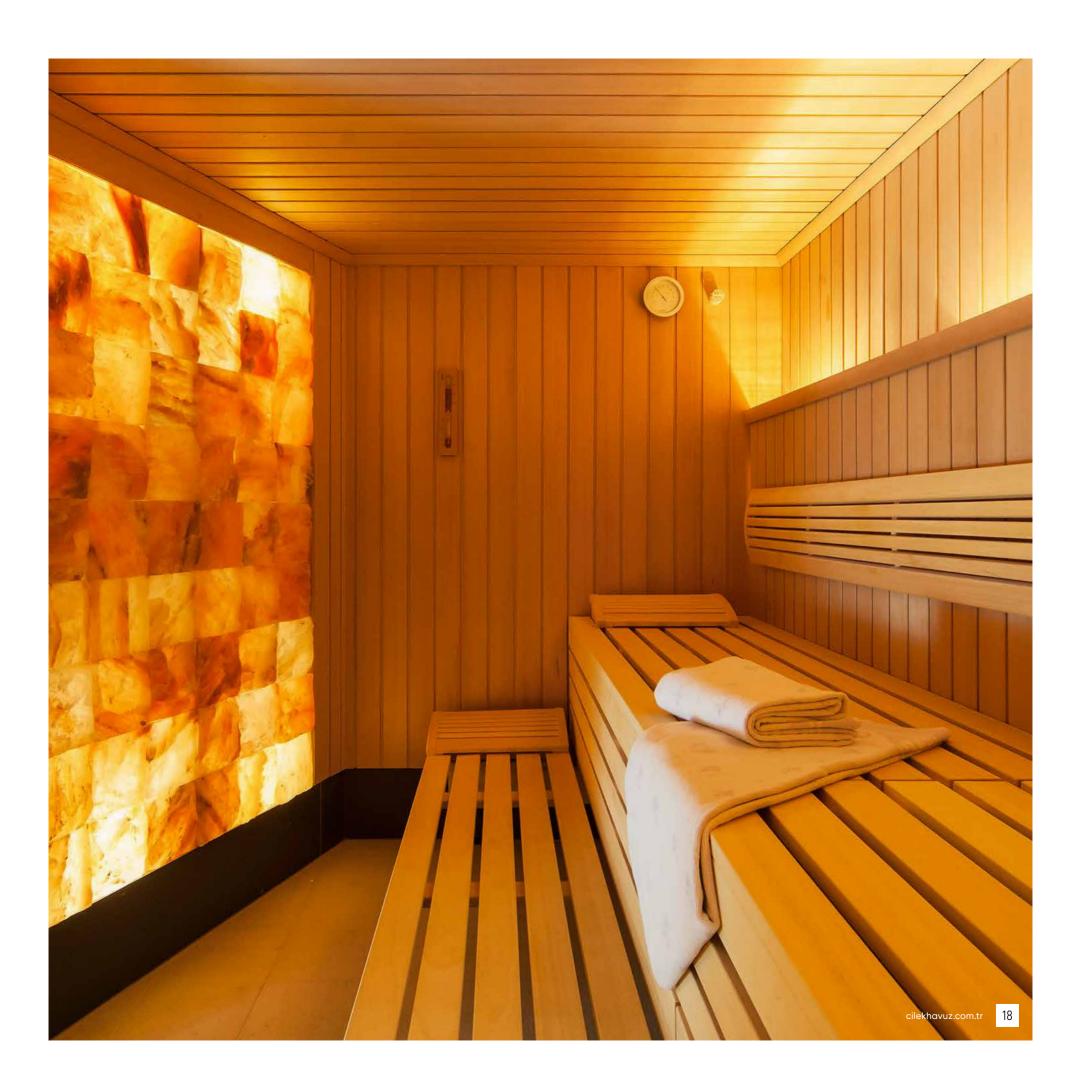

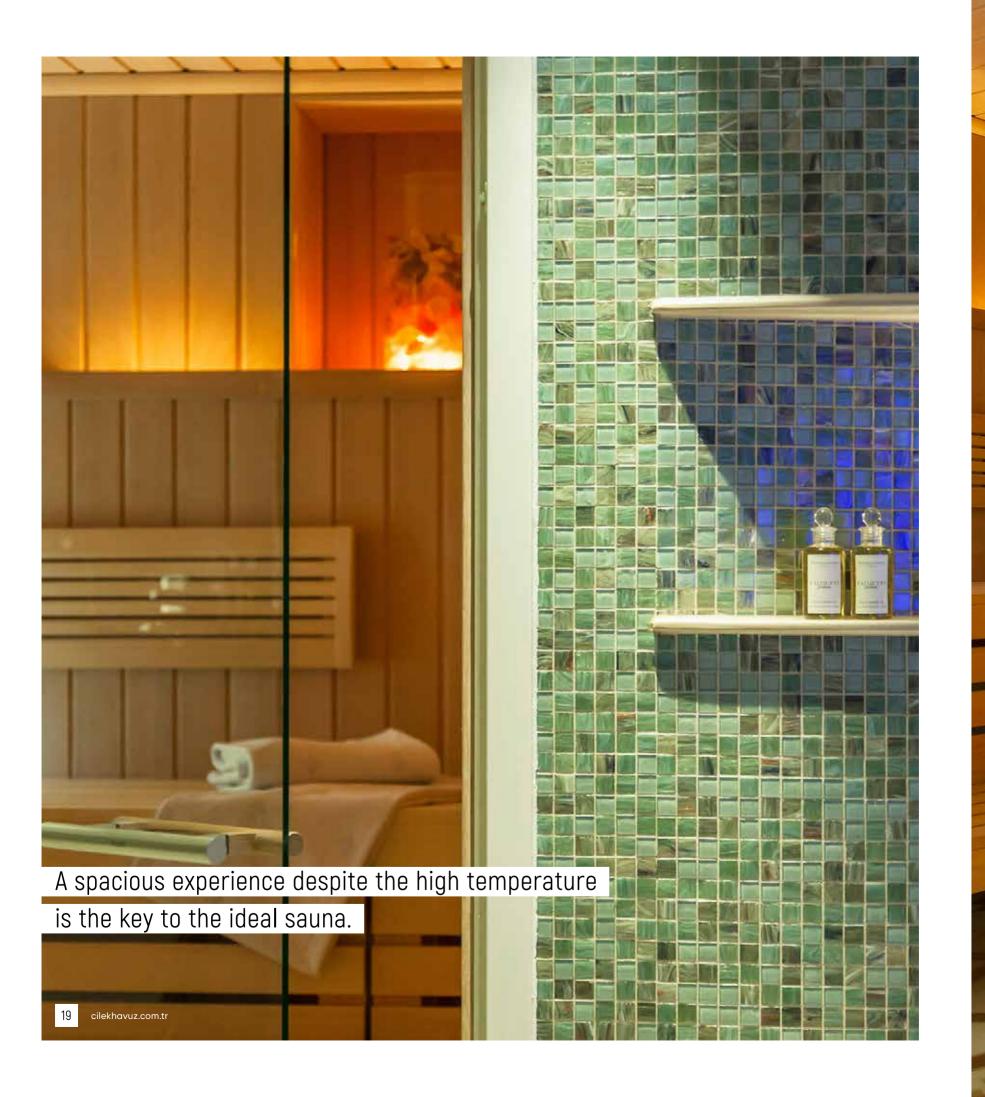

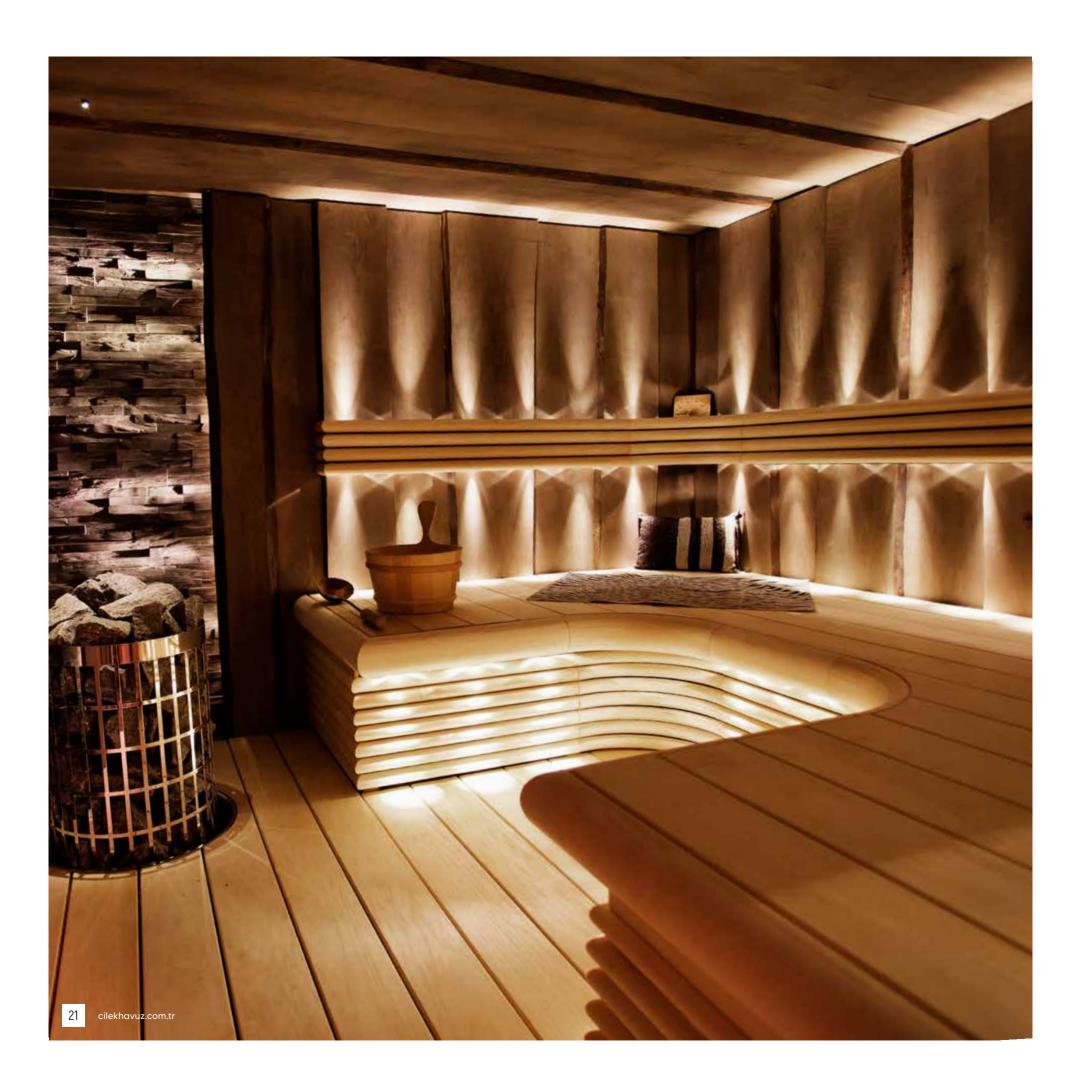

The right place for saunas that work perfectly in line with the concept of Spa & Wellness

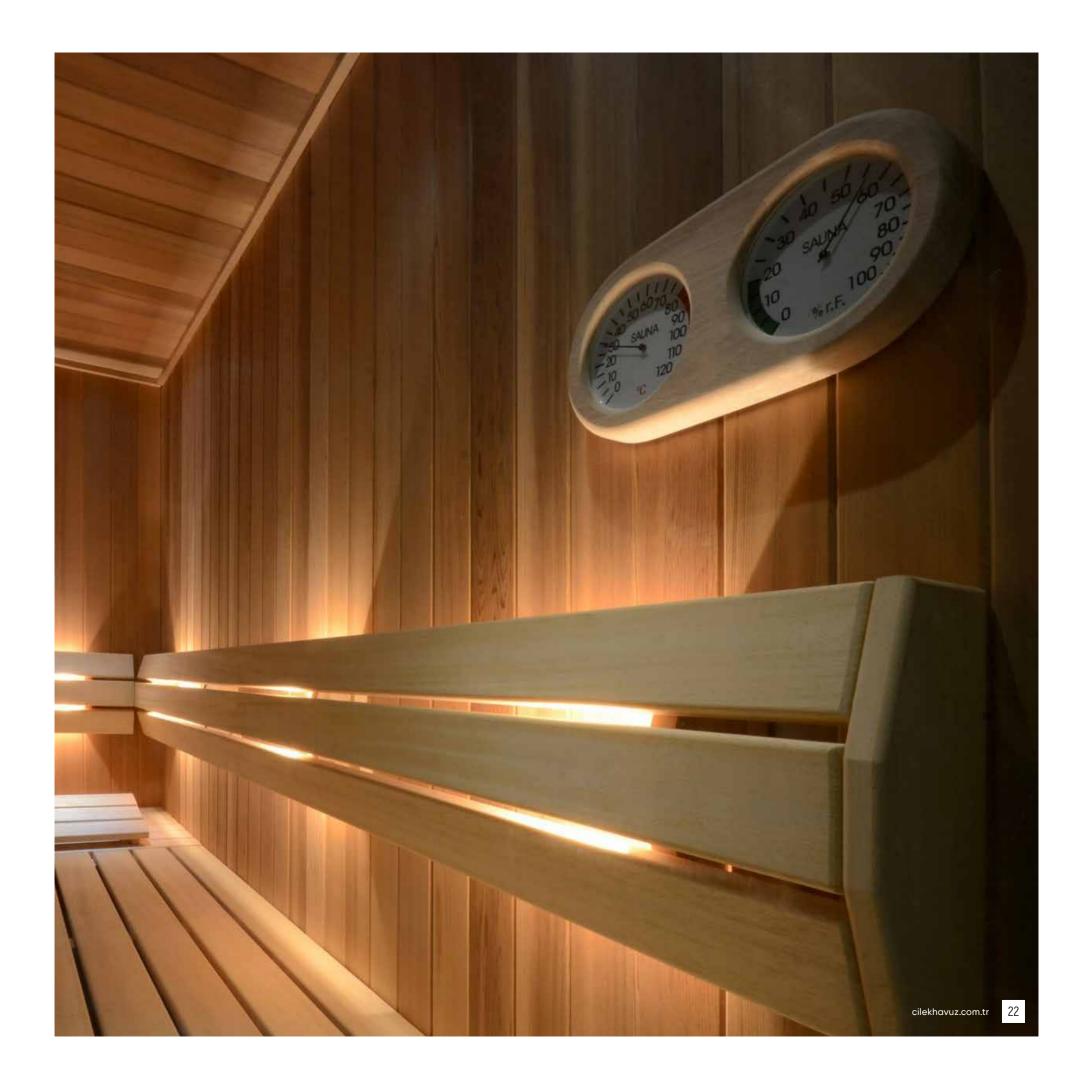

The sauna should be able to easily reach the ideal balance of heat and humidity and provide a heat therapy experience that will not bother its users. For this reason, while planning all the technical details of the units and general spaces with the usual Çilek havuz quality, we also place atmosphere at the center of excellence.

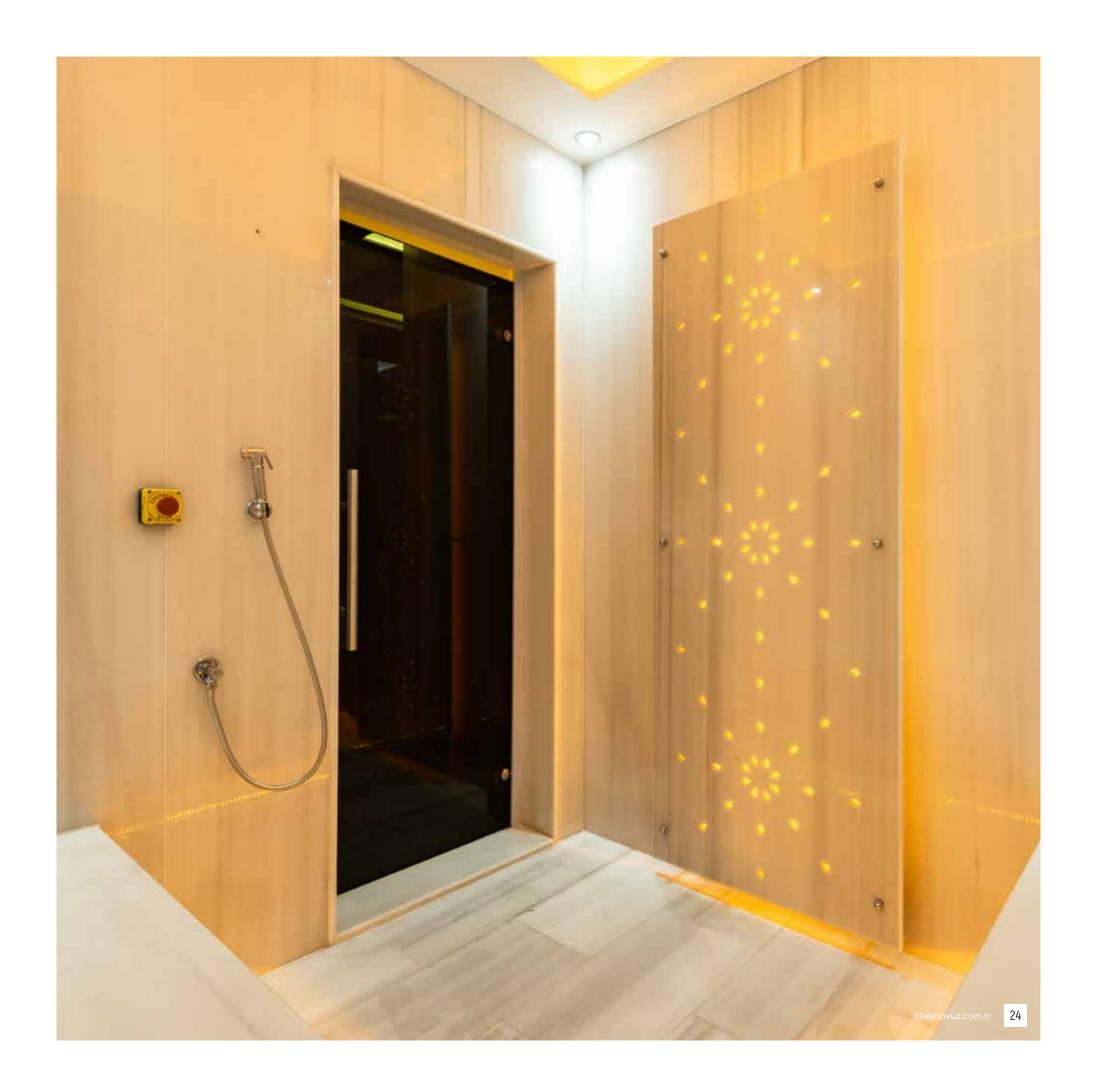

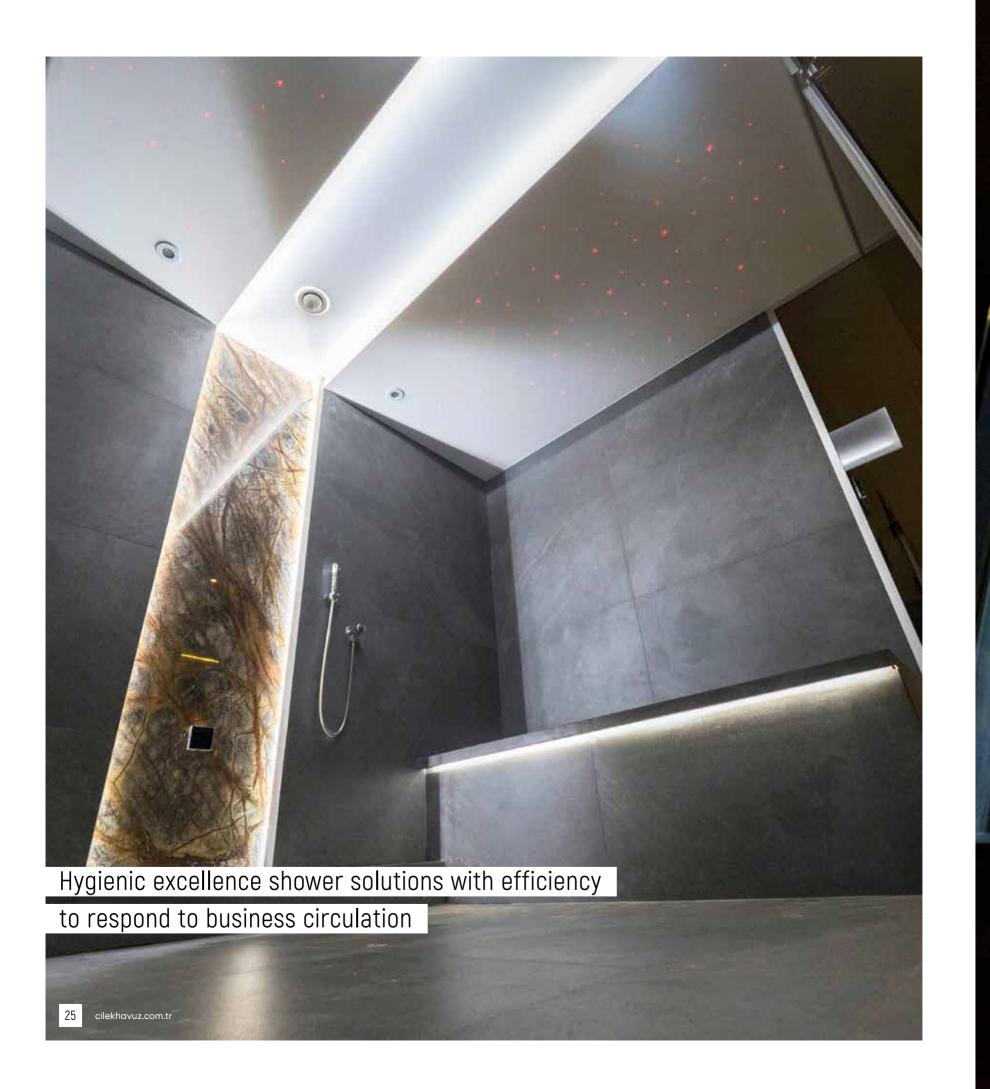

Perfectly working steam rooms that respond to every design needed...

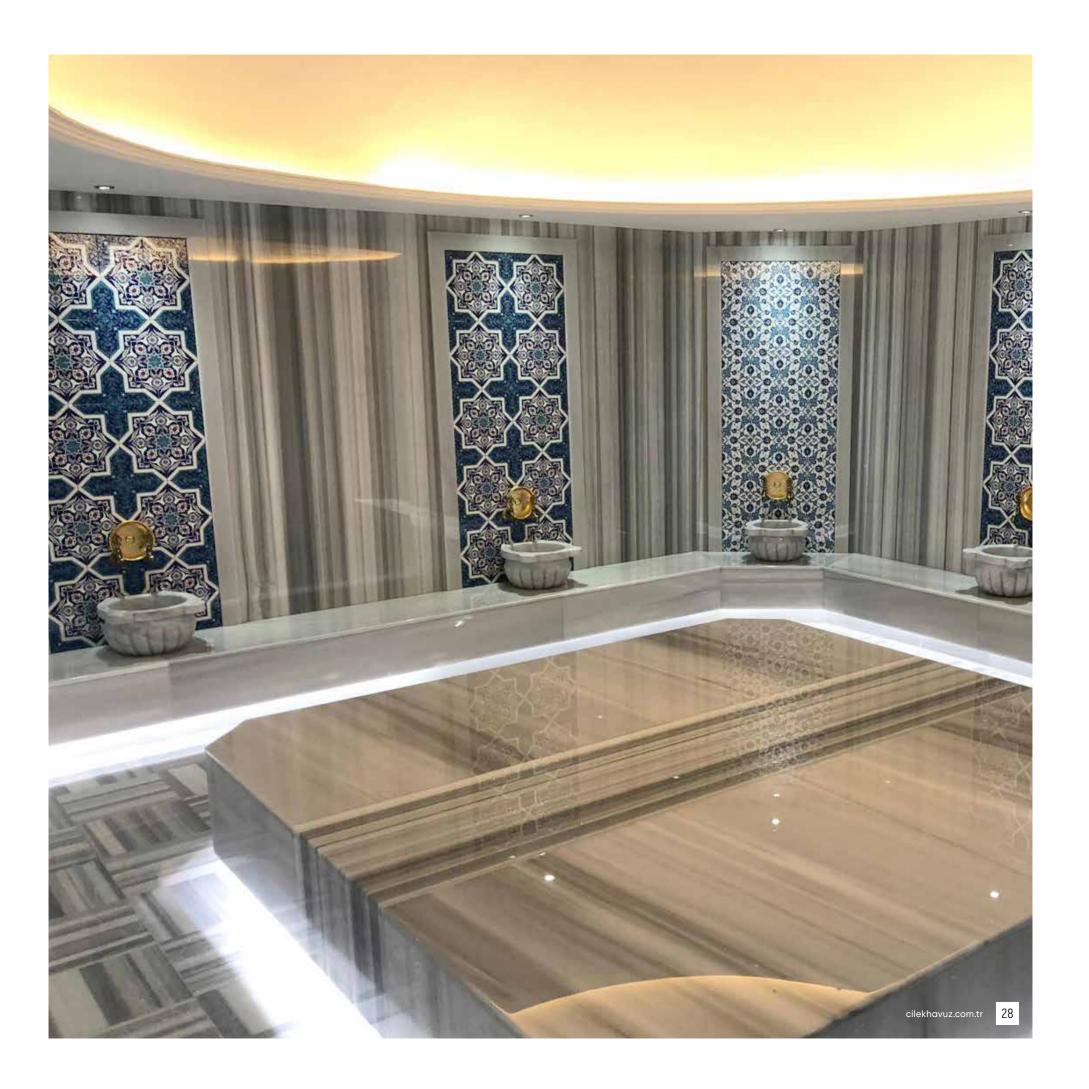

Steam rooms with different heat / steam levels for different comfort levels should be carefully calculated and implemented. For this reason, while planning all the technical details of the units and general spaces with the usual Çilek havuz quality, we also place atmosphere at the center of excellence.

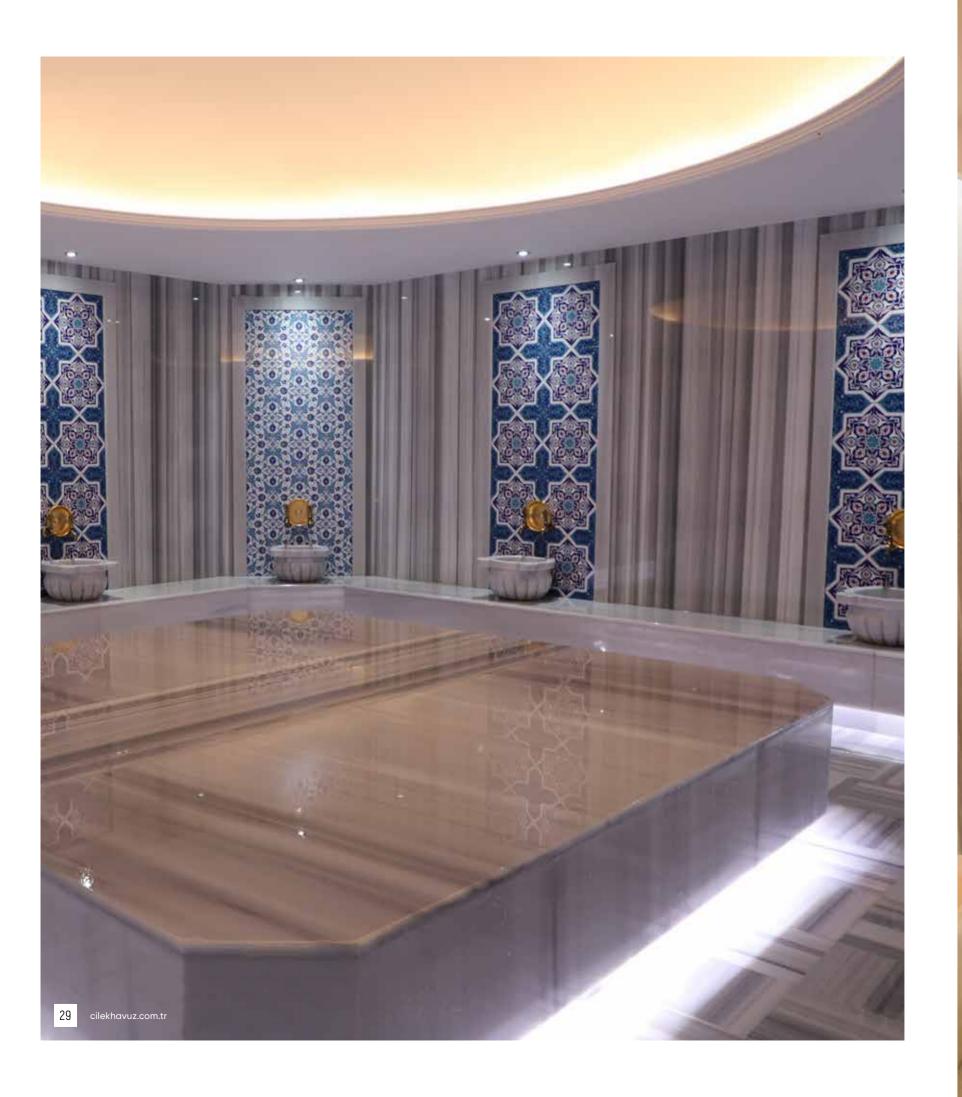

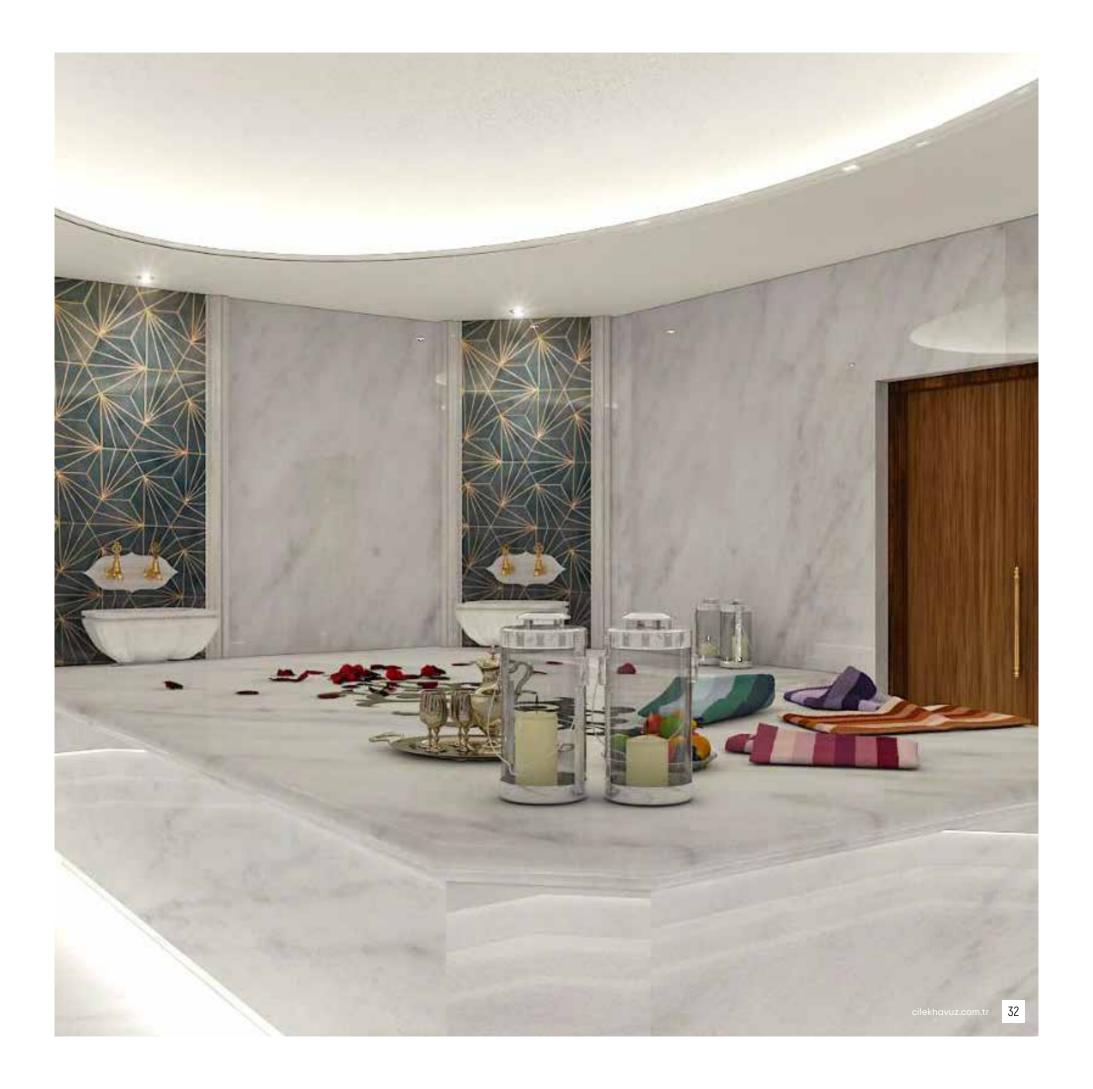

The right address for Turkish baths shaped by engineering... Turkish baths that surround users with a centuries-old feeling and meet today's needs. Private Turkish baths with hygienic, efficiency and low maintenance. cilekhavuz.com.tr

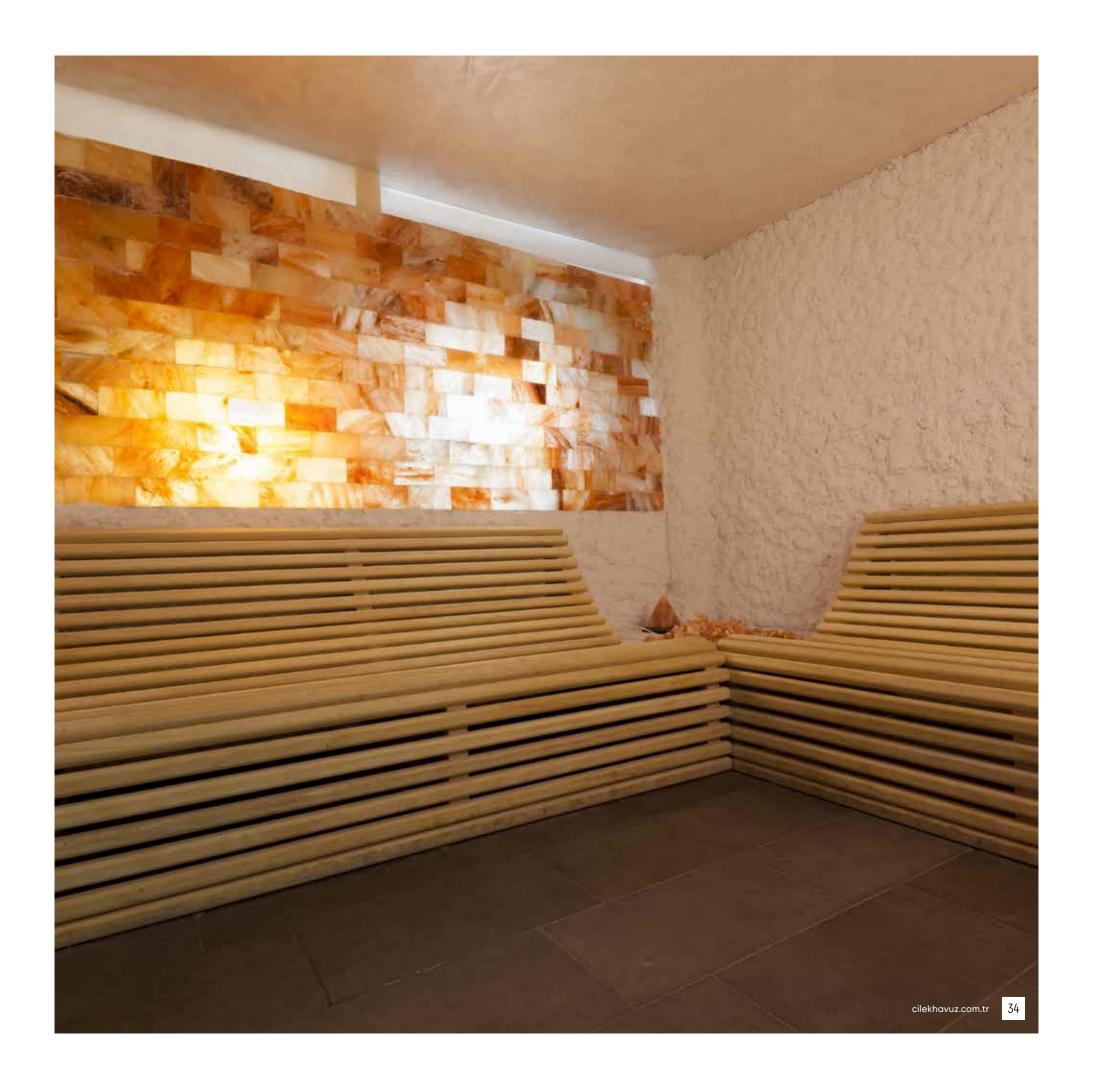

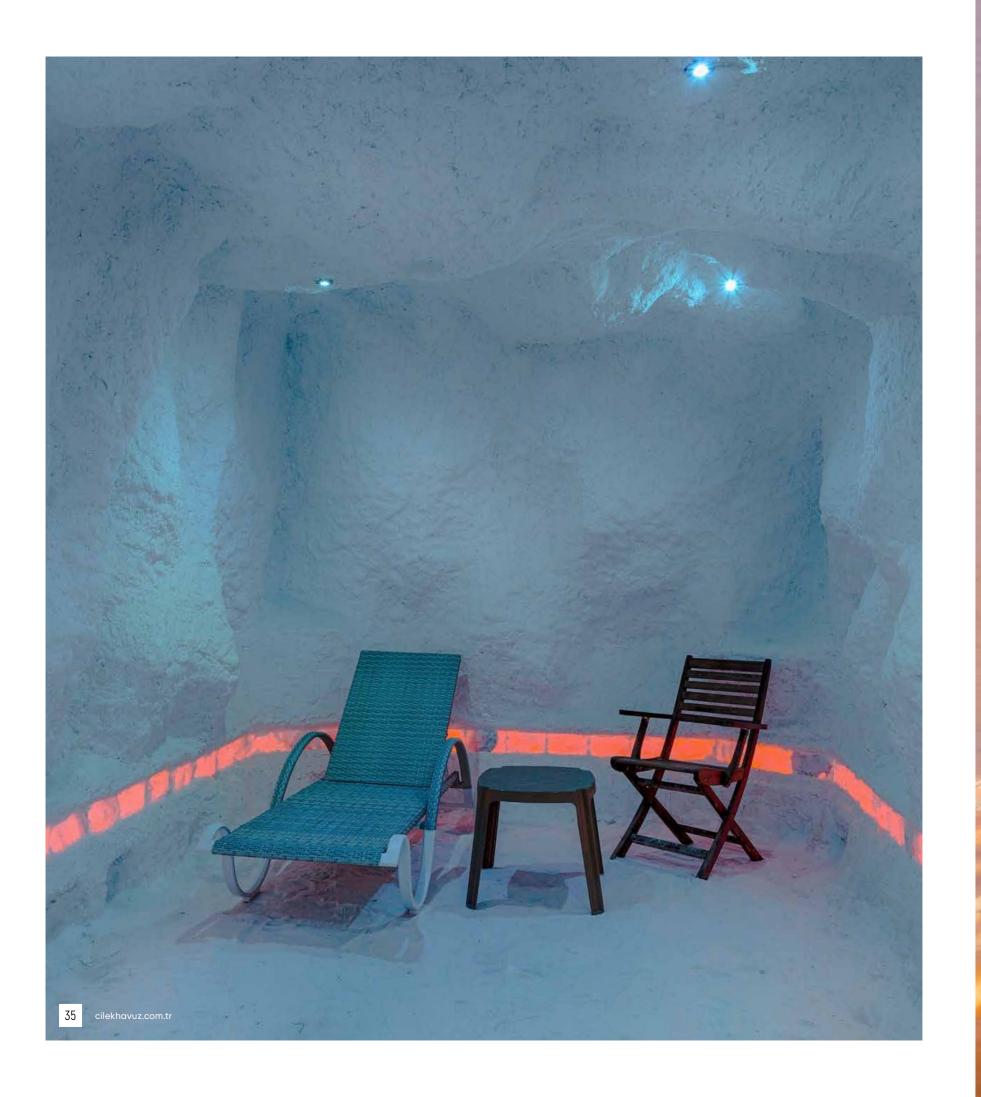

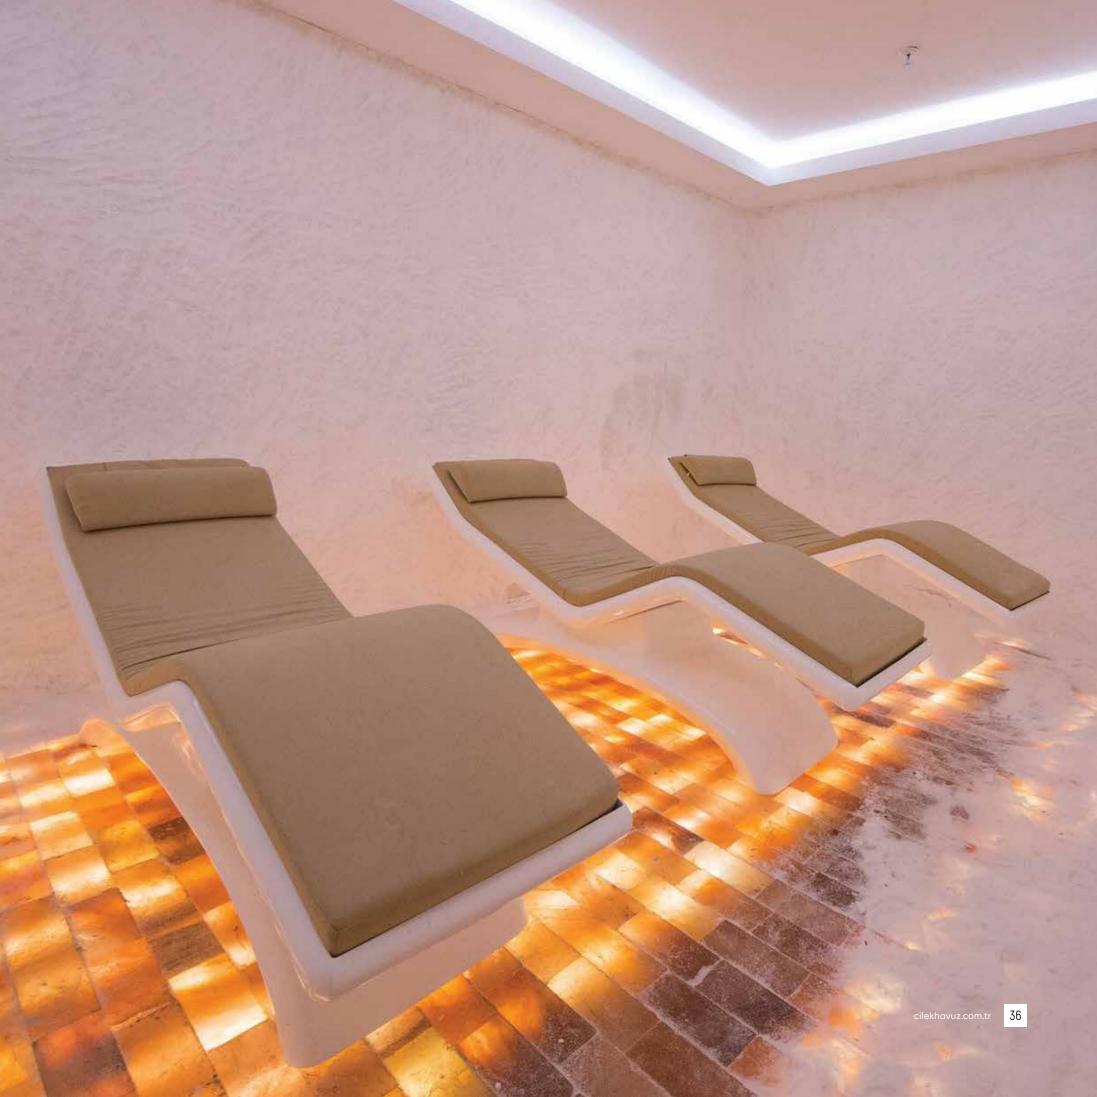

Spa solutions that add value to spaces

Spa areas, which we specially designed for intensive work, can be produced with features suitable for all interior preferences. It maintains its first-day efficiency even in busy working environments with low maintenance needs.

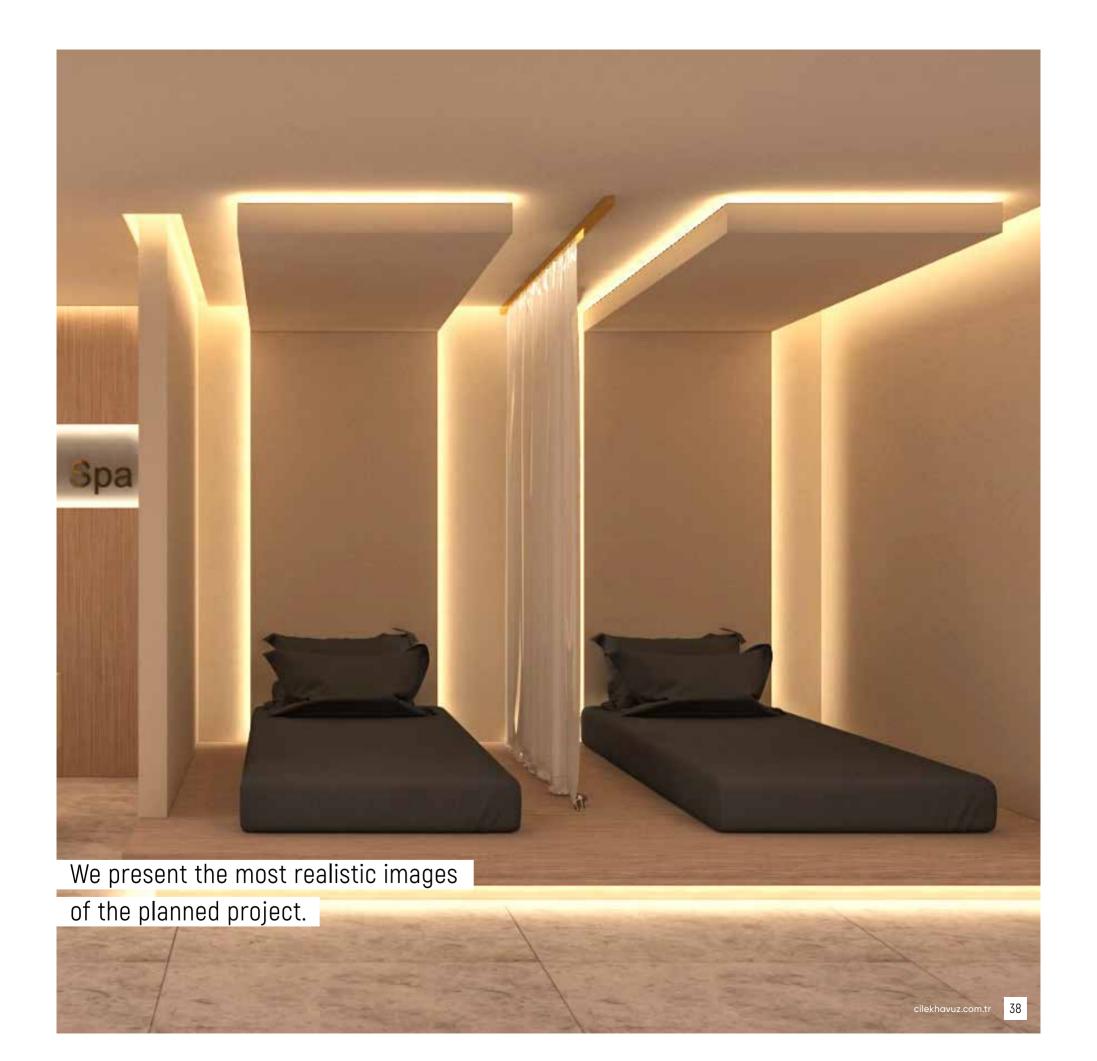

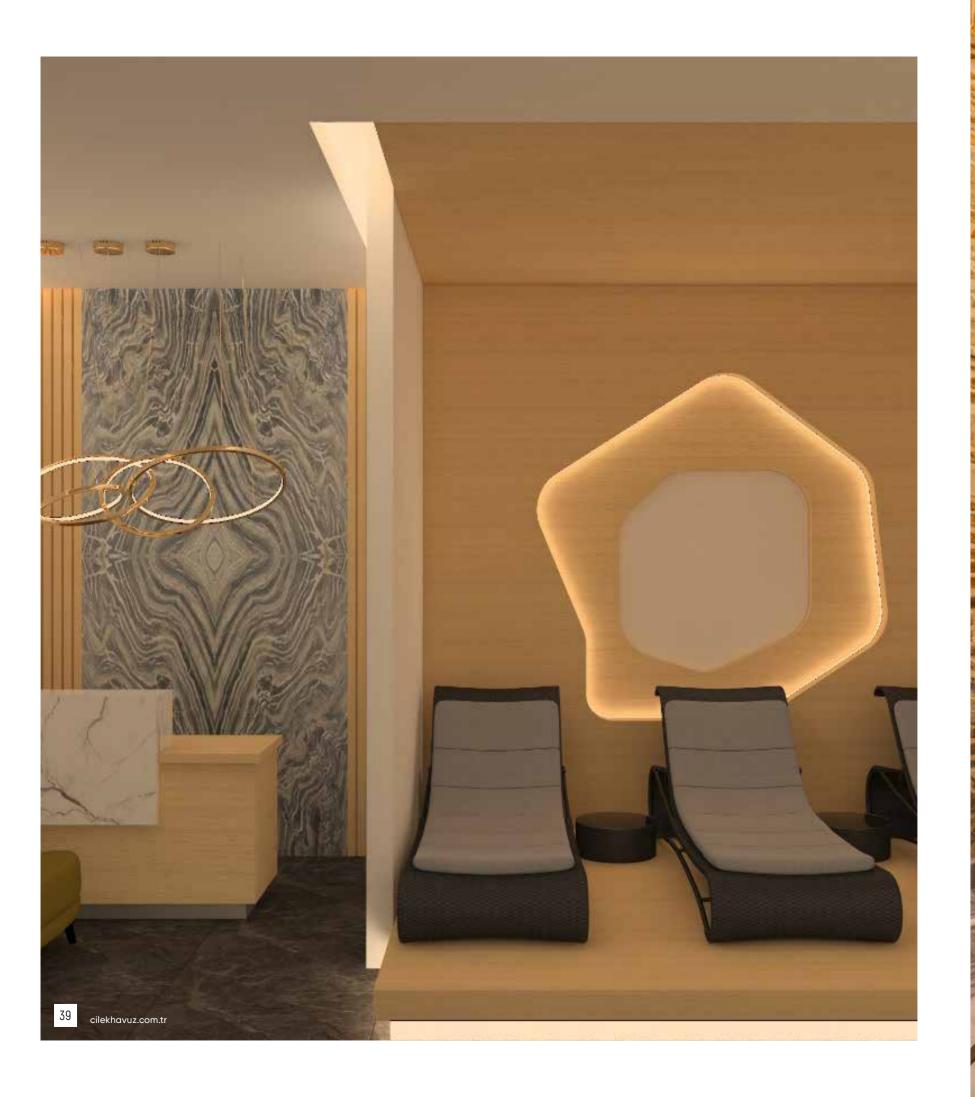

Our expert architects design your dream project for you

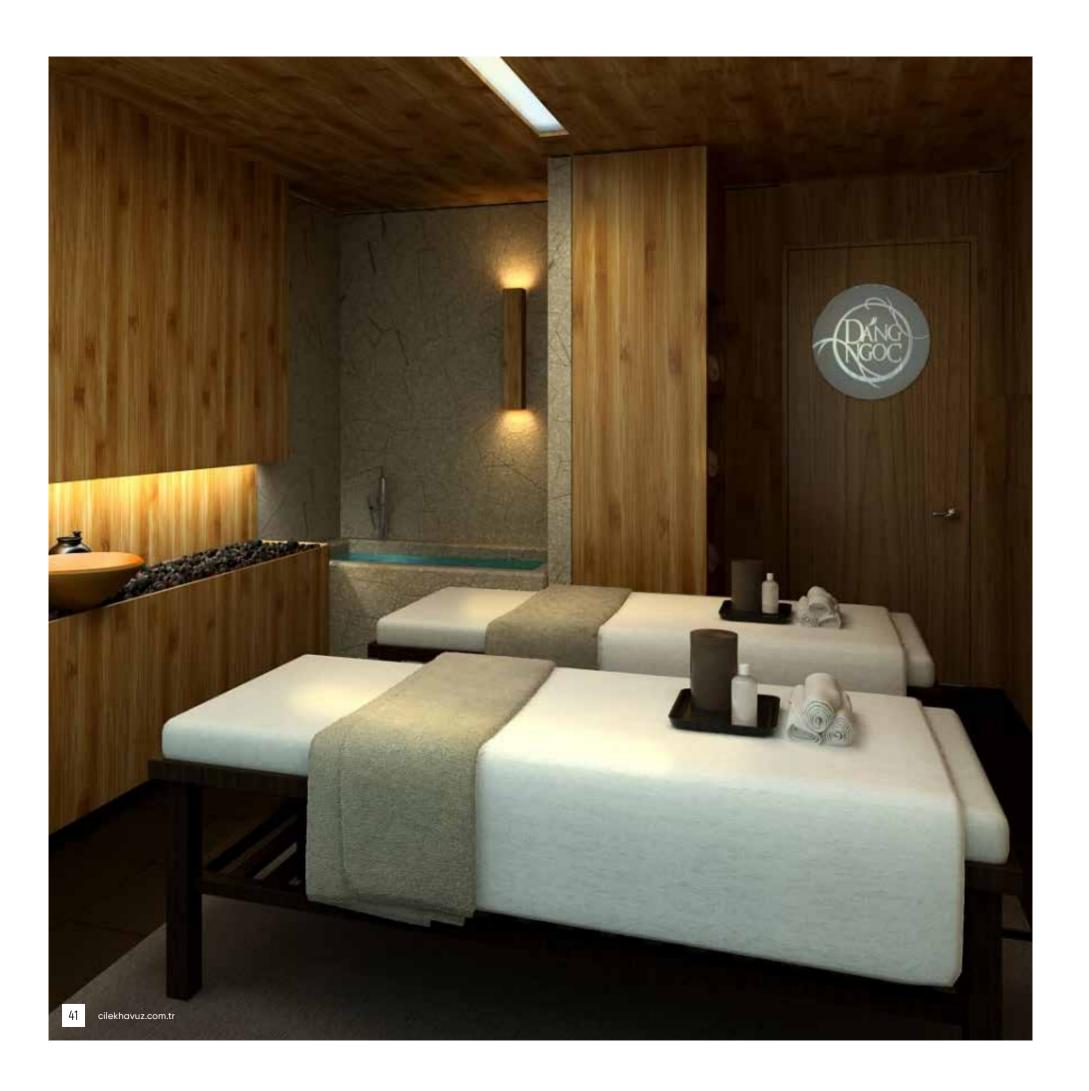

Çilek havuz is a design and application company that produces creative solutions on an international scale in the field of massage rooms with its dynamic and experienced staff who have been doing the right thing they know for 27 years.
